

ECOLASTIC® PLAY

SAFETY THAT'S HERE TO STAY

EPDM* granules designed for softness, resiliency and color fading resistance.

ECOLASTIC PLAY is suitable for the installation of wet pour safety surfacing in playgrounds and jogging tracks.

*EPDM = Ethylene Propylene Diene Monomer

Contemporaries

Radiants

Natural colours may vary from the actual product when viewed on print/screen mode. Samples are available upon request. We strongly advise the sighting of actual samples before selection is made as Fairmont will not be held responsible for variation in the colours selected and the end product received.

Features

- Bright and attractive color range
- Product tested and certified
- Maintains its key safety features such as softness and resiliency post outdoor exposure

Uses

- Playground, Recreational Facilities

Size

- Standard: 1 - 4mm
- *Customize sizes are available

Test

- REACH Certificate of Compliance
- PAHs (Polycyclic Aromatic Hydrocarbons)
